

# What-is-Spoken-Tutorial/D0/What-is-Spoken-Tutorial-2min/English-timed

Time	Narration
00:00	Welcome to this two minute overview of the <b>spoken tutorial</b> project.
00:04	My name is Kannan Moudgalya.
00:06	Spoken tutorial is a screen cast with a running commentary.
00:10	A recording of a session, created for self learning.
00:13	We promote FOSS, also useful to bridge digital divide, can be freely downloaded.
00:19	Let us go to our website. Here is 'spoken tutorial.org'
00:26	Here is a sample spoken tutorial.
00:29	“ Recording File”
00:34	We now explain the process involved in creating spoken tutorials.
00:38	We start an outline as shown here.
00:41	We write the script for each tutorial as shown here.
00:45	Then we record the script.
00:47	We have already seen the recording. Then we translate the script as shown here.
00:51	Then we dub it as shown here.
00:53	<i>Recording files</i>
00:59	This was a tutorial in Hindi.
01:03	We will come back to this.
01:06	Here is the architecture of a spoken tutorial.
01:10	We conduct workshops using spoken tutorials, Domain experts are not required.
01:15	Workshops are of 2 hour duration.
01:18	The students learn at their own speed.
01:21	They can use a language of their choice.
01:23	All of them can reach the same level.
01:26	We have found the workshops to be very effective.
01:30	These workshops are becoming very popular.
01:33	We currently conduct 200 workshops a month.
01:36	Number of confirmed workshops in North, West, East and South.
01:42	Here is a graph of Quarter-wise visits to our website.
01:48	Lets go back here.We are starting on <b>digital divide</b> tutorials.
01:53	Here is an example.“ Recording file”
02:00	Here is a sample tutorial on <b>First Aid</b> .
02:04	“ Recording file”
02:16	These tutorials will be extremely useful to the majority of Indians.
02:20	This tutorial explains this project in more detail.
02:25	We have some publications. Who funded us?
02:28	Thanks for joining.
